

Heaven

Erasure

Take me to Heaven one more time
The deeper I fall into your eyes
Takes me to Heaven

Will I ever be your hero?
Or is that your fantasy?
Head up in the clouds
Never coming down
Spinning to the ground

Can I look away, when you're dancing?
Do your hips gyrate and sway?
Head up in the clouds
Never coming down
Chained them to the ground

Honey, make me smile
Honey, you make me smile
Baby, you go my way, I'll go your way
Let our thoughts entwine

Wouldn't be a shock, to the system
'Cause your arms are made of steel
Made to carry me
Maybe marry me
Baby, carry me

All I do is stop, look and listen
Baby, we were meant to be
Head up in the clouds
Baby, coming down
Spinning to the ground

Maybe worth your while?
Maybe out of style?
Baby, you go my way, I'll go your way
Pain as if my heart's intended

Take me to Heaven one more time
The deeper I fall into your eyes
Takes me to Heaven

I don't want to learn my ABC
As long as I know who's minding me
Takes me to Heaven

Take me to Heaven one more time
The deeper I fall into your eyes
Takes me to Heaven

I don't want to learn my ABC
As long as I know who's minding me
Takes me to Heaven
