

I Like It

Erasure

(One, two, one, two, three, four)

I like it, I ain't lying
What you're doing to me
And I'll honour, you always
Why don't you go get a job?

I didn't wanna let you
You're a living legend
Didn't wanna let you
Thought you'd learned your lesson

No matter what you tell me
'Cause I sure ain't good with the pain no more
You sure about your loving?
'Cause it's soaring through your brain once more

Woah, woah
'Cause we got the love, woah
We got the love, woah
We got the love

I like it, you did
What you're doing to me
I'll honour, you're worth it
Did you go get a job?

Do you see what you're looking for?
We're coming down to the lover's sea

Woah, woah
We got the love

No matter what you tell me
'Cause I sure ain't good with the pain no more

You gotta lift me high
You gotta lift me high
You gotta lift me high
You gotta lift me high

Running away with you
Get away with the same old thing, I could die
Running away is a dream come true
Tell me you don't care anymore

You gotta lift me high
You gotta lift me high
You gotta lift me high
You gotta lift me high

No matter what you tell me
'Cause I sure ain't good with the pain no more
You sure about your loving?
'Cause it's soaring through your brain once more

Woah, woah

'Cause we got the love, woah
We got the love, woah
We got the love

We got the love, woah
We got the love, woah
We got the love, woah
We got the love, woah

'Cause we got the love, woah
We got the love, woah
'Cause we got the love, woah
We got the love
