## Just When I Thought It Was Ending

**Erasure** 

How was I to know you wouldn't show? I gave it all I could it wasn't good enough And I do care For my life And I do swear That I'll survive Just when I thought it was ending I could feel you Just when I thought it was ending I could feel you It's just a matter of time And only time will heal you Just when I thought it was ending I could feel you Darling can I feel you? It was meant to last and then it disappears Just like a photograph of who's an innocents I did not mean To hurt you so That was the last thing in my mind I'd ever do Just when I thought it was ending I could feel you Just when I thought it was ending I could feel you It's just a matter of time And only time will heal you Just when I thought it was ending I could feel you How was I to know You wouldn't show? How was I to know You wouldn't show? Just when I thought it was ending I could feel you Just when I thought it was ending I could feel you It's just a matter of time And only time will heal you Just when I thought it was ending I could feel you
