

Love The Way You Do So

Erasure

On and on and on
Here's the break of dawn
Coming through the window (Heart)
Pull yourself a chair up (Love)

On and on and on
Quiver like a reed
Let yourself a go go (Old man)
Honour me a solo (Young man)

Careful not to give yourself away (Careful)
There is still tomorrow and a heartfelt meaning

When you get that feeling you will recall
A night of love in motion

We shall lie
Warm inside
Quite at ease
Watch me glide

We shall lie (Harmony)
Side by side (A Rhapsody)
Here and now (Melody)
Talk in turn
Love the way you do so

Time is rolling on
Blending with the mind
Love the way you tease me (Heart)
Tear another layer off (Love)

Listen to the stillness of the day (Listen)
Drawing ever closer like your heart is beating
When I hear it beating I will recall a night of love in motion

We shall lie (Harmony)
Warm inside (Rhapsody)
Quite at ease (Melody)
Watch me glide
Love the way you do so

We shall lie (Harmony)
Side by side (Rhapsody)
Here and now (Melody)
Talk in turn
Love the way you do so

(I love to hear you breathe and sigh)
(I love to hear you breathe and sigh)
(I'm wishing that you're here within my arms again)

We shall lie
Warm inside
Quite at ease
Watch me glide

We shall lie
Side by side (Rhapsody)
Here and now
Talk in turn
