

My Love

Erasure

My love, mmm, meet me tonight
Hey beautiful, full of life and such
Come on, say you really turn me on
Oh, you've got the moves
To keep your body strong

So dear, what's the big idea?
Got to work it out
So clear and far

My love, will you go with me tonight?
It's chemical, it's a universal thing
No ties, you've come on all over shy
Ooh, my heart goes boom
In a twinkle of your eye

So dear, what's the big idea?
Got to work it out
So clear and far, ooh

So long, see you really turn me on
Boy you've got the moves
To keep your body strong

So dear, tell me what's the big idea?
Got to work it out
So clear and far, ooh
