Never Let You Down

Erasure

Give it some rest and fall in time
I was alone and out of line
I was the last to see it coming

Did what you wanted me to do
I broke your lonely heart in two
We fell apart without a warning

I will never let you
I will never let you
I will never let you down

I will never hurt you
Love will never hurt you
Love will never ever let you down

And in the noise I start to drown
It's hard to breathe in all this sound
It'd hard to string two words together

Maybe I've left it all too late
Maybe we can't communicate
I can't believe this is forever

I will never let you
I will never let you
I will never let you down

I will never hurt you
Love will never hurt you
Love will never ever let you down

I will never let you
I will never let you
I will never let you down

I will never hurt you
Love will never hurt you
Love will never ever let you down
