

Rage

Erasure

Let's face the music
I think that it's time.
What's the use
When the future looks so unkind.
Life and death - the choice we make.
Revolution - the line in my mind takes.

Win or lose, hey
What do you say
Got to change change change change
Check it out and see - there could be a better lifestyle
My hopes are big as the sky
My dreams are wider than wide
One day we'll be absolutely cruelty free

Rage

March on
Unleash the spirit
Rise above all fear
Into the light
It's a world affair
Don't waste a minute
Let the heart decide
It's time to care

What is this sad fascination
To rip off another's skin
Shame Shame Shame
Fancy people in furcoat - what a pitiful sight
Leather is dead - it's not so nice

Rage

March on
Unleash the spirit
Rise above all fear
Into the light
It's a world affair
Don't waste a minute
Let the heart decide
It's time to care

Stop
Think
Before you chew
Don't eat a creature that won't eat you
Food for everyone
Let's all eat - it's so much fun
Let that chicken be
A cow is not a factory
Fast food slaughter - a criminal waste
We've got to tune ourselves into a new morality
Make some improvement on the human race

Rage each time I turn around
Rage it tears my heart apart

Rage each time I see the blood
Hey now
Sentimental feelings are just not good enough

March on
Unleash the spirit
Rise above all fear
It's time to care

March on
Unleash the spirit
Rise above all fear
Into the light
It's a world affair
Don't waste a minute
Let your heart decide
It's time to care

March on
Unleash the spirit
Rise above all fear it's time to care
