

# Reason

# Erasure

I couldn't fix my heart 'cause everything was hurting  
But I've been growing stronger since you came along  
I know that life is precious, gotta make the most of it  
Making every second count of every day

You are the food for my soul  
The tears in my heart

You are the reason I live  
You are the reason that I forgive  
The only reason I live  
The only reason that I forgive

I always lived my life like some kind of fairytale  
'Til you gave it meaning, put my feet on the ground

You are the food for my soul  
The tears in my heart

You are the reason I live  
You are the reason that I forgive  
The only reason I live  
The only reason that I forgive

'Cause you give a little love  
When I'm all out of it  
Never get enough  
I scream and shout for it  
Give a little love  
I'm all over it  
Never get enough  
I scream and shout for your love  
(Shout for your love)  
(Shout for your love)  
(Shout for the reason that I forgive)

Give a little love  
I'm all out of it  
Never get enough  
Scream and shout for it  
Give a little love  
I'm all over it  
Never get enough  
Scream and shout for it

You are the reason I live  
You are the reason that I forgive  
The only reason I live  
The only reason that I forgive

'Cause you give a little love  
I'm all out of it  
Never get enough  
I scream and shout for it  
Give a little love  
I'm all over it  
Never get enough

I scream and shout for your love
