Eric Bellinger

This is some new, ooh (Oh-oh-oh)  
This is some new, ooh (Oh-oh)

Why we be at each other? (Sheesh)  
When we could be on each other (Yeah)  
Why you be all on my head?  
When I could be all your head, boy?  
Instead of your screamin' to blame  
You should be screamin' my name (Sheesh)  
We could be bad, we could be good  
Why we can't be be on the same page?

I should be just as hard as you go when we fight  
Every day, every night  
And it could in your face, instead of me in your face  
Every night, every day, yeah, yeah

Will agree to disagree but can you meet halfway?  
My way, my way, my way, now  
Will agree to disagree but let's agree just from waist down  
Waist down, waist down, waist down, oh-oh-woah  
Waist down

Since you wanna fight, let's go round for round (Waist down)  
Instead of turnin' up, I'ma turn you out (Waist down)  
Since you wanna fight, let's go round for round (Waist down)  
Instead of turnin' up, I'ma turn you out  
Let's agree to disagree (Oh)

How you expect me to miss you? (Miss)  
When you always come with an issue (Issue)  
I'm tryna push it up on you (On me)  
But you too busy pushin' my buttons, babe (Damn)  
Why you be ridin' my last name?  
Why you ain't ridin' on my curves?  
You get me up, I take you down  
After I pour me some champagne

I should be just as hard as you go when we fight  
Every day, every night  
And it could in your face, instead of me in your face

The differences we, keep on rockin'  
On my mind (On my mind), oh  
We gon' make it (We gon' make it)  
The storms we be chasin' (We be chasing 'em), oh  
But can you stand the rain?

Will agree to disagree but can you meet halfway? (Can you? Woah, oh-woah)  
My way, my way, my way, now
