

All For Me

Eric Bellinger

Know that you're supposed to be under me
Running it back, doing a repeat
Know you miss laying up in these sheets
'Cause I need you right here with me
Seeing you naked, girl, is it all for me
For me, baby
Tossing and turning and fucking up my head
Baby, yeah, yeah

You want me on and off you
Body on top of body
Came with your best friend
I love a toxic party
First, it's, I hate you
Then we fucking in this Maserati
They know you're solid body
I thank God about it

You know I'm serious 'bout you, babe
Look at the time I spent on you, babe
Can we rewind, get on the same page
I'm trying to make you believe

Know that you're supposed to be under me
Running it back, doing a repeat
Know you miss laying up in these sheets
'Cause I need you right here with me
Seeing you naked, girl, is it all for me
For me, baby
Tossing and turning and fucking up my head
Baby, yeah, yeah

I don't wanna share you with nobody
I don't wanna talk about it
I would rather lay up in bed with you
And skip the party
If we moving forward
You gon' have to save it all for me, yeah
Girl

You know I'm serious 'bout you, babe
Look at the time I spent on you, babe
Can we rewind, get on the same page
I'm trying to make you believe

Know that you're supposed to be under me
Running it back, doing a repeat
Know you miss laying up in these sheets
'Cause I need you right here with me
Seeing you naked, girl, is it all for me
For me, baby
Tossing and turning and fucking up my head
Baby, yeah, yeah

Ooh, all for me, all for me
Is it all for me
Or nah

Yeah
