

Ball

Eric Bellinger

First check I ever got I had to ball on it
Drive stick so they shouldn't ever stall
When I'm lonely, yeah, I let that money talk to me
Ain't no other man gonna get the ball
First check I ever got I had to ball on it
First check I ever got I had to ball on it
First check I ever got I had to ball on it

All the dollars, you know who you are
Fake bankies tryna take a spark
Yeah, I see em specially when I park
Pull up in that blue Roy, it ain't got no top
Run up a check, yeah, run up a check
Run up the charge, yeah, run up the charge
Beautiful face, yeah, beautiful face
You know I'm a star, yeah, you know I'm a star

They know I'm a star
So they play they part
I been breakin' hearts
Since my money got large

First check I ever got I had to ball on it
Drive stick so they shouldn't ever stall
When I'm lonely, yeah, I let that money talk to me
Ain't no other man gotta get involved
First check I ever got I had to ball on it
First check I ever got I had to ball on it
First check I ever got I had to ball on it

Oh my God, that's a hundred thou
That shit is a deal, that must be on sale
Book so many deals, I lost track of count
Now I'm rockin' shit I can't even pronounce
And my team, and my homies
Yo, she feel Jack and I'm Colby
Got a living room full of trophies
I was chosen way before they told me, yeah

They know I'm a star
So they play they part
I been breakin' hearts
Since my money got large

First check I ever got I had to ball on it
Drive stick so they shouldn't ever stall
When I'm lonely, yeah, I let that money talk to me
Ain't no other man gotta get involved
First check I ever got I had to ball on it
First check I ever got I had to ball on it
First check I ever got I had to ball on it
