

# Bed Medicine

Eric Bellinger

Bet you've been waiting for me  
Ow ow this is what you wanted  
Appoint a schedule for 3  
Ow ow in the morning  
You know my guide is to please you

Girl you know I don't want you to be nervous  
Since this is your first time with me  
Just sit back and breathe

I'm a put my hands in places  
Just to see if your body can take it  
I'm a the demo for you I'm paying with  
See all you needed was me

[Chorus:]  
You don't need a prescription  
'Cause chances are I might not see you again  
So come and get you some bed medicine  
So can you take this shot  
Your temperature is hot  
I'm gon' lay you down  
I might not see you again  
So come and get you some bed medicine

Got you some vitamin D  
Ow ow now you overdosing  
If I get down on my knees  
The bear I'm a turn into the ocean  
You know my job is to please you  
Girl I know you can't give a purpose  
And it's the first time with me  
So just sit back and breathe

[Chorus:]  
You don't need a prescription  
'Cause chances are I might not see you again  
So come and get you some bed medicine  
So can you take this shot  
Your temperature is hot  
I'm gon' lay you down  
I might not see you again  
So come and get you some bed medicine

I know you feel better  
'Cause you can't even get up  
When I see you out  
You said you drive us too loud  
Had to bring her right back up  
You like that  
'Cause you ain't even fight back  
Bet you never thought my love  
Never thought my love  
Never thought my love  
Could be your drug  
I'll be your remedy  
Whenever you need a phase

Call me doctor and I got you

[Chorus:]

You don't need a prescription

'Cause chances are I might not see you again

So come and get you some bed medicine

So can you take this shot

Your temperature is hot

I'm gon' lay you down

I might not see you again

So come and get you some bed medicine
