

Club Lights

Eric Bellinger

If I was to walk up on a sexy woman in the corner
Would she still look like a model chick
Fine as hell coke bottle body thick
If I saw her early tomorrow
Wonder would I still wanna call her
Would I take her number and throw it away
Is she cool enough to save it for a rainy day
(Bridge: Eric Bellinger)
'Cause from over here
She lookin' like Beyonce mixed with Kelly mixed with Hailey
That's a domino
Girl come over here
And let me take a closer look at you
'Cause you know that I've been fooled before

By the make up, by the strobe lights
By the way they move their body to a song like
Too many club lights
Down them club lights
(Tank)
Bitch look bad
Under them club lights
Whole lot of ass
Under them club lights
Dump all this cash
Under them club lights
Under them club lights
Damn them club lights

Intoxicated, I've been drinking
It's the liquor, it's not me thinking
Vision blurred I done lost all sight
And behind these shades all these hoes look right
You know I can't trust no bitch and
Can I see you with no filter
'Cause if you really look like that in real life
I'm willing to show you what it feel like

'Cause from over here
I think I see a clique full of Rihanna's
You're all looking tropical
So come over here
And let me take a closer look at you
'Cause you know that I've been fooled before
(Pre-Eric Bellinger)
By the make up, by the strobe lights
By the way they move their body to a song like
Too many club lights
Down them club lights

Bitch look bad
Under them club lights
Whole lot of ass
Under them club lights
Dump all this cash
Under them club lights
Under them club lights

Damn them club lights

Am I wrong, cause I wanna know

If she bad I'ma take her home

If she cool I'll keep her on the low

I'm just sayin' I've been fooled before

(Pre-Eric Bellinger)

By the make up, by the strobe lights

By the way they move their body to a song like

Too many club lights

Down them club lights

Is she bad, Is she bad

I don't know

Too many club lights

Tell the DJ turn them lights on

Damn them club lights
