

Hey, hey
Oh, yeah

Your physical attraction, it takes my breath away baby
You get the right reaction out of me, now just let me explain baby, yeah
Ooh you make it eazy to fall for you
Who knew that my heart was made for two?
And when I see you under them covers
Oh girl you better take cover
And when you leave, you still in my head and I love it babe, oh

I got me a good girl and she so bad
Ain't afraid to scream my name when she take that
Baby I been lookin' for a girl like you, all my life, all my life
Sophisticated girl from the ghetto, said she independant and she got herself
together
Baby I been lookin' for a girl like you, all my life, all my life

I'll call a 1000 hours, don't care how long it takes baby, yeah
It ain't even a problem when you need me, I'm just a call away baby, oh
Everything that you got you deserve it, that's cause I think you're worth it
I run my fingers through your hair cause to me girl you perfect

Ooh you make it eazy to fall for you
(Girl I don't know you do it but you turn me up)
Who knew that my heart was made for two?
(Girl you perfect it's so crazy you can't do no wrong)
And when I see you under them covers
Oh girl you better take cover
And when you leave, you still in my head and I love it babe

I got me a good girl and she so bad
Ain't afraid to scream my name when she take that
Baby I been lookin' for a girl like you, all my life, all my life
Sophisticated girl from the ghetto, said she independant and she got herself
together
Baby I been lookin' for a girl like you, all my life, all my life

Sexy little Bonnie, girl, you got it I can't let it get away
I wanna get to know better, girl, I ain't just tryin' to get between your legs
But I'll do it, if you want me too then baby I'll do it
Word on the streets your last nigga blew it
I'mma do the things he should've been doin'

I got me a good girl and she so bad
Ain't afraid to scream my name when she take that
Baby I been lookin' for a girl like you, all my life, all my life
Sophisticated girl from the ghetto, said she independant and she got herself
together
Baby I been lookin' for a girl like you, all my life, all my life

My life, my life
All my life, all my life
My life, my life
All my life, all my life
