

Film Me

Eric Bellinger

You're my superstar
And girl tonight I'll be your groupie
I just wanna make love
Like they do it in the movies

Violence, hard sex
Other sounds
Softly, gently
Lay you down

I'll be the director baby
You can be the actress
I'll pull out my camera
Are you ready?
Action!

If you don't know what to do now
Let me show you how

First you start by kissing me
Then I grab your hips and we
Fall right back onto the bed, to the bed
Now the plot is thickening
I can hear you whispering
Over and over again

Oh I love it when you film me
Baby just film me
Pull the camera out on me
I love being in the spotlight
We can do this all night
Film me, let me star in your movie

I got all the props
And all the angles in position
Now we in the bedroom
We gon' end up in the kitchen

Pots and pans are
Fallin' down
Don't mind 'cause you
Like it loud

Baby stay in character
I'm a take care of you
All you gotta do is perform for me
You know just what to do now
I ain't gotta show you how

First you start by kissing me
Then I grab your hips and we
Fall right back onto the bed, to the bed
Now the plot is thickening
I can hear you whispering
Over and over again

Oh I love it when you film me

Baby just film me
Pull the camera out on me
I love being in the spotlight
We can do this all night
Film me, let me star in your movie

Baby you can star in my movie
(I just wanna star in your movie)
Baby come and star in my movie
(Baby can I star in your movie?)
Film me
I'm a film you baby

I'm a grab my iPhone
We can even do it with the lights on
I'm a press record
So baby when I say action
Baby you know I'm a perform
Like you tryin to win an award, yeah
