

Four Seasons

Eric Bellinger

Girl I know you been looking for love
But you ain't gonna find it in the club
You just want something you can feel
And I been tryna give you something that's real
Girl I know you been looking love
But you ain't gon' find it in the club
You just want something you can feel
And I been tryna give you something that's real

Yeah, running into her at her favorite restaurant
We both had a taste for some chik-fil-a
And one more thing in common
We forgot they closed on Sundays
That was my chance had to shoot my shot (Doo-doo-doo)
I don't ever really see you out
No diggity no doubt
I'm on it

Girl I know you been looking for love
But you ain't gonna find it in the club
You just want something you can feel
And I been tryna give you something that's real
Girl I know you been looking love
But you ain't gon' find it in the club
You just want something you can feel
And I been tryna give you something that's real

Baby I know you want it
And I been tryna get you all Summer
We can start off with a weekend
Work our way to four seasons
Baby I know you want it
And I been tryna get you all Summer
We can start off with a weekend
Work our way to four seasons

Girl I know you been looking for love
But you ain't gonna find it in the club
You just want something you can feel
And I been tryna give you something that's real
Girl I know you been looking love
But you ain't gon' find it in the club
You just want something you can feel
And I been tryna give you something that's real

That was my chance had to shoot my shot
I don't ever really see you out
No-diggity no doubt
I'm on it
That was my chance had to shoot my shot
I don't ever really see you out
No-diggity no doubt
I'm on it
