

Genius

Eric Bellinger

She got good head that's what I told her
Good head up on her shoulder shorty solar
She a genius
And she graduated college with brain like a scholar
Man I swear this girl a genius
She prolly finna top me off right now
Take your tights off top me off get pipe down
Jodeci the way you got me feenin'
Damn mami you're a genius

And I'm good with my words
And I'm hood speakin' verbs
Watch me jook, watch me surf
I like Kush when I burn
I ain't done still my turn
More you live more you learn
She better with me
I never leave her
She never gone leave me stressed and I ain't coming without her

She got good head that's what I told her
Good head up on her shoulder shorty solar
She a genius
And she graduated college with brain like a scholar
Man I swear this girl a genius
She prolly finna top me off right now
Take your tights off top me off get pipe down
Jodeci the way you got me feenin'
Damn mami you're a genius
Just put it in your mouth
Never take it out
Go make zaddy proud
Get loud
Yeah yeah yeah yeah
Took that round brown up again
Velvet headboard that's the only thing we up against
Just bang it like a bitch

She better with me
I'll never leave her
She never gone leave me stressed and I ain't coming without her

She got good head that's what I told her
Good head up on her shoulder shorty solar
She a genius
And she graduated college with brain like a scholar
Man I swear this girl a genius
She prolly finna top me off right now
Take your tights off top me off get pipe down
Jodeci the way you got me feenin'
Damn mami you're a genius

It's gon' be your favorite song
Damn mammi you're a genius
If it ain't right then id rather be wrong
Damn mammi you're a genius

Just let it right out, tho
Feel good, don't you?
