

Gravity

Eric Bellinger

Gravity, pull me
Gravity, control me
Like gravity you hold me down
Down, yeah
Gravity, pull me
Gravity, control me
Like gravity you hold me down
Down, down, down, down

We be going up when nobody else around, round, round
Grab me in your legs, we could do it till the sun come out
Girl, you so lit, you the shit, you competing with the stars
Yeah, we can make our own Milky Way somewhere

Very far
Past Mars
In the dark
Tryna create new life

Gravity, pull me
Gravity, control me
Like gravity you hold me down
Down, yeah
Gravity, pull me
Gravity, control me
Like gravity you hold me down
Down, down, down, down

Yeah
I swear that revolve around my mind, aye
You know the universe don't lie, aye
Yeah, slow it down, losing track of time, aye
I'm fuck you good at the speed of light
Girl, you so lit, you the shit, you competing with the stars (I notice you're the star)
Yeah, we can make our own Milky Way somewhere

Very far
Past Mars
In the dark
Tryna create new life

Gravity, pull me
Gravity, control me
Like gravity you hold me down
Down, yeah
Gravity, pull me
Gravity, control me
Like gravity you hold me down
Down, down, down, down

Tryna create new life
