

House Party

Eric Bellinger

You and your friends
You and your home girls
You and your home girls
[x4]

You and your friends and you and your home girls
After this club you can all go home girl
With me and my niggas, yeah me and my day ones
Don't they say girls just wanna have fun

We gon' be doing the most
We gon' be doing the most takin'
Pictures we can't even post
Pictures we can't even post, no, no
We could keep it on the low
We could keep it on the low
We both, don't need nobody to know
Don't need nobody to know

As soon as you and your friends walk through the door
Don't be wasting no time tryna take it slow
You know I, you was invited to my
House party, house, house party

You and your friends
You and your home
You and your home girls
It could be
You and your friends
You and your home
You and your home girls
We could go back to my crib
So there we can all be alone girl
We can take a couple more drinks
So that we can all just let go

We gon' be doing the most
We gon' be doing the most takin'
Pictures we can't even post
Pictures we can't even post, no, no
We could keep it on the low
We could keep it on the low
We both, don't need nobody to know
Don't need nobody to know

As soon as you and your friends walk through the door
Don't be wasting no time tryna take it slow
You know I, you was invited to my
House party, house, house party

Or it could be just you and me baby
Whatever you like
Yeah, yeah

Ay girl you seen my black sweater?
(Erm yeah, it's in my closet, where you about to go?)
(Right, where are you going)

Erm, somewhere
(Hmm, you know they say nothing good comes after midnight right)
(Being fast)
Girl mid your own business
(She's crazy)
(Don't forget your lil' night bag)
