

# I Need You

Eric Bellinger

I need you, I need you  
Sacrifice them so I can give you my all  
I need you, I need you  
Reminiscing got me in position  
I know  
You my blessing  
I will wait however long  
You my blessing  
Yeah, yeah

I self-medicating, trying to stay, balanced  
Meditated, went vegan, eat salad  
Fake happy online until we got great at  
Searching for validation from niggas that ain't valid  
We're all kind of mentally confused  
Every woman I dated was sexually abused  
Pressured with aggression instead of in the mood  
Made to feel pessimistic over feminist views  
Daddy wasn't 'round, wanna cry on, fine  
Little things, I learn how to tie a tie online  
Intuition I rely on mine  
If the shoe fits wear it I'm a try on mine, real shit  
I wasn't afraid of death, wasn't afraid to die  
More afraid of heartbreak and more afraid to cry  
I need to face my own truth can't be afraid to fly  
I'm too generous to cheat, and too brave to lie. Word up

Baby, baby  
I need you, I need you  
Sacrifice them so I can give you my all  
I need you, I need you  
Reminiscing got me in position  
I know  
You my blessing  
I will wait however long  
You my blessing  
Yeah, yeah

The plan was to level up some  
And never returned back to the level you leveled up from  
Did I get enough done? Too neglected or too excessive?  
If it costed your inner peace then it's too expensive  
Head up never down to the floor  
Never look up to the rich or look down to the poor  
Don't mean to sound insecure, but I'm growing through confrontation  
I'd rather hold a grudge than hold a conversation  
This that big ego too much pride combination  
The padlock without the combination  
This is not new. I'll let you down when I say that I got you  
I never learned how to love I actually learned not to  
Whatever my priority is you tell me it's not you  
I say "I love you" you tell me it's not true girl you deserve to be happy  
You deserve to be happy  
Maybe I do too shit

Baby, baby  
I need you, I need you

Sacrifice them so I can give you my all  
I need you, I need you  
Reminiscing got me in position  
I know  
You my blessing  
I will wait however long  
You my blessing  
Yeah, yeah
