

Lay Up

Eric Bellinger

Before you got my text you knew tonight would be the night
Before you made your bed already made up yo mind
Before I picked you up you was ready to ride
Before you asked me up I couldn't wait to get inside

This should be a lay up
I already want you
You already want me
Just come over and lay up
Girl quit wasting up time
Let's see what this could be
Oh yeah, you know you wanted my love
Girl you been waiting for this
Baby just throw me the pass
Bet I'ma put it right in
Keeping it light on the touch
I see you with the assist
Finally it's one on one
Look at the flick of my wrist
Girl we should lay up
Girl we should lay up
Girl we should lay up
Girl we should lay up
This should be a lay up
This should be a lay up
Girl we should lay up

Every time I see you they be perking out your chest
Hair done, nails done, waxed up
Who you tryna impress?
It ain't hard to tell you that want me around
Nike's laced up might as well just do it now

This should be a lay up
I already want you
You already want me
Just come over and lay up
Girl quit wasting up time
Let's see what this could be
Oh yeah, you know you wanted my love
Girl you been waiting for this
Baby just throw me the pass
Bet I'ma put it right in
Keeping it light on the touch
I see you with the assist
Finally it's one on one
Look at the flick of my wrist
Girl we should lay up
Girl we should lay up
Girl we should lay up
Girl we should lay up
This should be a lay up
This should be a lay up
Girl we should lay up
