Eric Bellinger

Before you got my text you knew tonight would be the night Before you made your bed already made up yo mind Before I picked you up you was ready to ride Before you asked me up I couldn't wait to get inside

This should be a lay up I already want you You already want me Just come over and lay up Girl quit wasting up time Let's see what this could be Oh yeah, you know you wanted my love Girl you been waiting for this Baby just throw me the pass Bet I'ma put it right in Keeping it light on the touch I see you with the assist Finally it's one on one Look at the flick of my wrist Girl we should lay up This should be a lay up This should be a lay up Girl we should lay up

Every time I see you they be perking out your chest Hair done, nails done, waxed up
Who you tryna impress?
It ain't hard to tell you that want me around
Nike's laced up might as well just do it now

This should be a lay up I already want you You already want me Just come over and lay up Girl quit wasting up time Let's see what this could be Oh yeah, you know you wanted my love Girl you been waiting for this Baby just throw me the pass Bet I'ma put it right in Keeping it light on the touch I see you with the assist Finally it's one on one Look at the flick of my wrist Girl we should lay up This should be a lay up This should be a lay up Girl we should lay up
