

Make Up For It

Eric Bellinger

Girl I've been working all week
I know that you've been missing me on you
I already know you a freak
Ain't no tellin' what me and you gon' do

Let's not waste no more time
Girl I'ma make up for it
Baby let me make up for it
I just wanna make up for it, all night
Girl I'ma make up for it
All that other shit ain't important
Tonight I'ma make up for it babe

Put on that song that you like
Girl this that song that you like
Put on that song that you like
I know this that shit that you like
So let me make up for it

Baby all I wanna do is each and every part of you
Girl you gon' get a round for
Every second spend away from you

Let's not waste no more time
Girl I'ma make up for it
Baby let me make up for it
I just wanna make up for it, all night
Girl I'ma make up for it
All that other shit ain't important
Tonight I'ma make up for it babe

Put on that song that you like
This gon' be your favorite
Girl this that song that you like
This your favorite
Put on that song that you like
This gon' be your favorite
I know this that shit that you like
This gon' be your favorite song

This ain't your typical, ordinary make up love
This the kind of love you want me to give to you
Over and over and over
Girl, you gon' start fights with me
Trippin' on me for no reason
Just to get closer and closer and closer
Whatever it takes to be alone
Whatever it takes to get it on
Whatever it takes for your body to be on top of my body
I won't hurt you on purpose
But if I do it it'll be worth it
Whatever it takes for my body to be all up on your body
Whatever it take babe
