If I'm writing 'bout you  
I'll never get writer's block  
Too many words in the world (In the world)  
There's just too many words in the world (In the world)  
If I'm writin' about you  
You are the perfect muse  
So I'll never get writer's block  
I'll never get writer's block

You're a masterpiece conceptually  
Body so inspirin'  
I'm talkin' love and lust  
Like a present on a holiday  
Baby, you're the perfect gift for me, yeah, yeah

When we alone  
All the love that we made turn into a song (To a song)  
Every album I create could never go wrong (Go wrong)  
It keeps goin' on and on  
Behind every number one (Number one)  
Is my number one

If I'm writing 'bout you  
I'll never get writer's block  
Too many words in the world (In the world)  
There's just too many words in the world (In the world)  
If I'm writin' about you (You)  
You are the perfect muse  
So I'll never get writer's block (I'll never get writer's block)  
I'll never get writer's block (Oh, yeah, yeah, yeah)

I got a confession  
You a classic like Thriller  
And we be in harmony  
Every full moon, girl, I feel you  
You're my sweet lady (Woah-ooh-woah-oh)  
Droppin' hit after hit after hit  
Like Prince in the eighties (Ooh, woah)

When we alone (When we alone)  
All the love that we made turn into a song (Woah-oh)  
Every album I create could never go wrong  
It keeps goin' on and on  
Behind every number one (Number one)  
Is my number one

If I'm writing 'bout you  
I'll never get writer's block (How could I ever? Girl, it's)  
Too many words in the world (It's too many)  
There's just too many words in the world (I could never run out, baby)  
If I'm writin' about you (You)  
You are the perfect muse  
So I'll never get writer's block (I'll never get writer's block)  
I'll never get writer's block (No, oh)

Oh, ooh-oh-oh, oh-ooh-ooh
