

# My Check

Eric Bellinger

This gon be your favorite song

All I really wanted was a chance to play the game  
I knew one shot is all it would ever take  
I'm a 1 of 1 nigga from around the way  
Now I'm pulling up to the house inside the gate  
I'm on a wave  
I wanna shoutout my enemies  
All of them doubted me when they said no  
You don't know what it did to me  
The way I've been putting in work I knew it would happen eventually  
The way that my section is glistening  
They had to acknowledge the victory  
All of these bottles was sent to me  
You won't never ever hear me say we ran out  
Even when I'm sitting at my table I stand out  
Got my back against the wall hit me with the rotation  
Ain't afraid to spend it all yeah if you with the litation

I could fit your whole phone number in my check  
I could build another Majic City with my check  
I put on my niggas from the city with my check  
She said is it weed and alcohol and I'm like check  
She must of heard about my check  
Would she really want me if it wasn't for my check?  
Look like the lotto with my check  
I got comma, comma, comma, commas on my check

Money make me happy  
Bitch I'm always smiling  
All my diamonds water  
I look like a island  
Put a check on my feet, bitch these ain't no Nikes  
Blood all over my karates [?]  
Y'all niggas really be cheap  
I get money in my sleep  
Niggas get me shit for free  
Bitches gotta pay the fee  
Just a one nighter and [?]  
She want the title I want the title  
I think my lambo might be depressed  
Cause all of the doors is suicidal  
I think I need an apology  
Look at my stats I'm a prodigy  
I can't explain what's inside of me  
You can't fuck with the boy niggas tired of me  
Shoutout to bitches that's feeling me  
I know my ex's is missing me  
All the counters be killing me  
Somebody broke but it isn't me  
I just really had to add a couple rooms to my house  
I think I been moving way to fucking fast to slow down  
Niggas always in a rush  
All we wanna do is ball  
Just might just call me Usher  
Baby you don't have to call cause

I could fit your whole phone number in my check  
I could build another Majic City with my check  
I put on my niggas from the city with my check  
She said is it weed and alcohol and I'm like check  
She must of heard about my check  
Would she really want me if it wasn't for my check?  
Look like the lotto with my check  
I got comma, comma, comma, commas on my check
