And with her, and with her, and with her, and with her  
Why would I?

I love Benihana's but You know that's it's cursed, put this car in reverse right now

Cause I don't wanna reminisce every time we go out  
Girl I don't need shit from the past killing our vibe

Too many memories, too many memories  
Too many memories, let's make our own memories  
Memories, memories, memories, memories  
Memories, yeah, let's make some new memories
