

Night Before Christmas

Eric Bellinger

It's the night before Christmas
Night before Christmas
It's the night before Christmas
Night before Christmas

It's perfectly cold outside
The city is fast asleep, yeah
Come nestle in my arms
Pull you close so you can dance with me all night
Till the morning light
It's not time to open up the gifts
So till then I'm tryna focus on your lips

It's the night before Christmas
Night before Christmas
It's the night before Christmas
Night before Christmas

So let's dance the night away
Let's dance
Ooh
Let's dance the night away
Let's dance
Let's dance the night away
