

One More Time

Eric Bellinger

One more time
One more time
One more time
One more time

One more time
One more time
One more time
One more time

We both agree we got no business together
We've grown apart and went our separate ways
I understand we put a rush on commitment
None of that shit took my desire away
I wanna love on your body
Even if I can't wake up with you next to me shawty
And tonight was my last chance to hear you calling me papi
Calling me daddy
Call me whatever

One more time
One more time
One more time
One more night
One more time
One more ride
One more time
One more time
One more time
One more time
One more time
From behind
One more time

One more time with your legs up
One more time lets be extra
Turn around clench it tighter on me
Damn you got that fire all night

I wanna love on your body
Even if I can't wake up with you next to me shawty
And tonight was my last chance to hear you calling me papi
Calling me daddy
Call me whatever

One more time
One more time
One more time
One more night
One more time
One more ride
One more time
One more time
One more time
One more time
One more time
From behind

One more time

One more time

One more time

One more time

One more time
