Pull Up

Eric Bellinger

Can't take the distance
I know you miss it
I know you wishin'
That you wasn't alone (Alone)
You need your fix and
You know I can fix it
I know you wishin'

That I pull up on you, baby (Ayy)
Pull up on you, baby (Ayy)
You not good at waitin'
You need that right now
You a little crazy
But ooh, I like it, baby
You not good at waitin'
You need that right now, oh (Yeah)

I never know
The minute, the hour
But I stay ready for you, for you (You, you)
Yeah, you a bad girl, but you my bad girl (Ayy)
Get anything you want when you ride, girl

Can't take the distance
I know you miss it
I know you wishin'
That you wasn't alone
You need your fix and
You know I can fix it
I know you wishin'

That I pull up on you, baby
Pull up on you, baby
You not good at waitin'
You need that right now
You a little crazy
But ooh, I like it, baby
You not good at waitin'
You need that right now

Yeah, yeah

No competition (No, no, no)
Go with my instinct, I know you feel it
Come with me, babe, right now
Girl, I want you solo
Stay in my [?]
You got me choosy, badder than boujie
I want to play right now, oh
Give me the dance, oh, yeah
And pretty bounce on ting
We could be lovers and friends
I'll be there 'til the end
No need to guess
No, no second best
I dey fire the rest

Can't take the distance
I know you miss it
I know you wishin'
That you wasn't alone
You need your fix and
You know I can fix it
I know you wishin'

That I pull up on you, baby
Pull up on you, baby
You not good at waitin'
You need that right now
You a little crazy
But ooh, I like it, baby
You not good at waitin'
You need that right now

You need that right now
You need that right now
