Don't know where you are when I need you (You)
Hey, you took it too far I wanna see you (You)
You never too close when I need you (You)
You playin' your cards, I want a redo (Do)
I wanna be where you are when I need you (You)
Private jet through the stars just to see you (You)
You know you never too close when I need you (You)
I fucked up with you before I need a redo, I need a redo

Tell me your dirty secrets (Your dirty secrets)
You know I'm with it, I'm with it long as you mean it (Mean)
I had you topless, I need to extend your visa (Visa)
We need a reup, we need a redo (Yeah)
There's nothing like you, I can't stand by (Yeah)
Them other girls that came and go, they had a deadline (Ooh)
I'm wakin' up in the morning, I'm in bed lying (Bed)
I found a gold mine (Gold)
I need her

I'm fascinated by the way you do it every time (Every time)
Crazy, I'm so occupied and you just cross my mind

Don't know where you are when I need you (You)
Hey, you took it too far I wanna see you (You)
You never too close when I need you (You)
You playin' your cards, I want a redo (Do)
I wanna be where you are when I need you (You)
Private jet through the stars just to see you (You)
You know you never too close when I need you (You)
I fucked up with you before I need a redo, I need a redo

I know that in time again
You'll hit me on my line again
I pull up with the wine again
My R&B so vibery
We so vibery, I can't wait to slide up in you
E.T dive up in you (Drippy)
Lose my mind up in you
That's brazy, let me do my thing
I make it rain like, S-W-V down on me
Let it rain, like can you stand [?]
Make her sing like, we need a redo

Fascinated by the way you do it every time (Every time)
Crazy, I'm so occupied and you just cross my mind

Don't know where you are when I need you (You)
Hey, you took it too far I wanna see you (You)
You never too close when I need you (You)
You playin' your cards, I want a redo (Do)
I wanna be where you are when I need you (You)
Private jet through the stars just to see you (You)
You know you never too close when I need you (You)

I fucked up with you before I need a redo, I need a redo

Then got back

Hol' up one more time, yeah, yeah

Run me more

I got [?] with you

Wait [?] with you, yeah

Yeah, yeah, oww

Hey, saucy, it's Eazy, woo

Damn

Hol' up, pause

Wait, run that back

I need a redo
