

We both made mistakes  
It's what it is  
Who am I not to forgive?  
Won't point the blame  
Won't call no names  
I know you still feel the same

Oh-nah-nah, don't worry now  
If love is in your heart, we're gonna figure out  
Never let go, stay together  
Got me like, oh now, now, you'll see the light  
The sun is on your side through the dark times  
And I'll be there if ever you feel lonely

Soon as the waves die down  
We'll keep on rising  
My hands won't let you drown  
Just keep fighting for me  
Don't let your fears give you pain when it's storming  
Soon as the waves die down  
We'll keep on rising

Some of these days just feel different  
I'm feeling the weight of the world  
I'm praying to whoever listens  
'Cause I'm thinking 'bout tomorrow  
Tell me, why should we cry some more?

Oh-nah-nah, don't worry now  
If love is in your heart, we're gonna figure out  
Never let go, stay together  
And oh now, now, you'll see the light  
The sun is on your side through the dark times  
And I'll be there if ever you feel lonely

Soon as the waves die down  
We'll keep on rising  
My hands won't let you drown  
Just keep fighting for me  
Don't let your fears give you pain when it's storming  
Soon as the waves die down  
We'll keep on rising

If nothing is fair, try forgiveness  
I'm only human like you  
And living with hate just leaves bruises  
And if we all have a purpose  
Why do we keep hurting?

And oh-nah-nah, don't worry now  
If love is in your heart, we're gonna figure out  
Never let go, stay together  
And oh now, now, you'll see the light  
The sun is on your side through the dark times  
And I'll be there if ever you feel lonely

Soon as the waves die down

We'll keep on rising  
My hands won't let you drown  
Just keep fighting for me  
Don't let your fears give you pain when it's storming  
Soon as the waves die down  
We'll keep on rising

The world turns and we still learn  
What it is to be somebody  
When time's hard, we pray hard  
Lord, give me a sign today

Let's find ways and better days  
Understand and take some time, and  
As the world turns, we'll still learn  
We're all gonna be okay

Soon as the waves die down  
We'll keep on rising  
My hands won't let you drown  
Just keep fighting for me  
Don't let your fears give you pain when it's storming  
Soon as the waves die down  
We'll keep on rising

Soon as the waves die down  
We'll keep on rising  
My hands won't let you drown  
Just keep fighting for me  
Don't let your fears give you pain when it's storming  
Soon as the waves die down  
We'll keep on rising
