

Shadows In The Dark

Eric Bellinger

Yeah
Ooh...

You drippy wet, like my baguette
Your silhouette posted up on my wall, damn
It got a shape like figure eight
Infinity, definitely a Eazy Call
I'll give you Summer Love all the way through the Fall
You make me Spring up in the Winter
I gots to be involved, with you girl

Could you be that body that'll heat up my cold
(Heat up my cold, heat up my)
Get your ass sexin' (Sexin' it all)
Looking some type of, ooh no

Hold your body when it's colder
There for your closure
Can we get a closer? (Can we get close?)
Shadows in the dark (Shadows in the dark)

Let me be the painter and you'll be my canvas babe (Ayy)
Dip your whole body in diamonds and gold (Uh, uh)

Could you be that body that'll heat up my cold
(Heat up my cold, heat up my)
Get your ass sexin' (Sexin' it all)
Looking some type of, ooh no

Hold your body when it's colder
There for your closure
Can we get a closer? (Can we get close?)
Shadows in the dark (Shadows in the dark)

You, put it (yeah), down
I've seen this shit in my head (Hey)
Come sit it on me now
Skinny dip in my sheets as I deem the lights
If you let me hit, I'ma leave it in all night
Tryna give you every single inch you deserve
While I hold you

Hold your body when it's colder
There for your closure
Can we get a closer? (Can we get close?)
Shadows in the dark (Shadows in the dark)

(Everytime you hear my music
This gon' be your favorite song)
