Catch me riding slow in a rose candy Cadillac  
Top down, side of the road, don't know where we at

Riding around the coast with you boy  
I light up one in the air  
Give me a shot of whatever you drinkin'  
Ma and my nigga we share  
Meet me in the back, I just wanna lay there  
Windows full of sunlight, PDA we don't care  
Nigga what I look like, he gon' give it to me all night

Oh baby you, you, you, you, you, got what I need  
So bring that shit over here and we gon' share  
Share, share, share, share  
Bring that shit over to me boy, share  
Share, share, share with me baby

You know what's mine is yours and I know what's yours is mine  
Love when you front the bill, I say it all the time, I do  
But you know you don't have to  
Cause you know your nigga he the man, he a drop a couple bands  
on you  
You like on me with a tent, I like to lean in the Bent', I do  
Want me to pay up the rent, just say the word and it's sent, to  
you  
Girl we we got is real, ain't sense to have it and not share

(Share, share, share, share)  
All I wanna do is share, share, (share, share)  
My money and all of our bodies baby  
With you girl, with you girl  
I just wanna share with you girl  
With you girl, with you girl  
Don't you wanna share with me girl  
(I do boy, I just wanna share with you boy, boy)

Catch me riding slow on rose candy Cadillac
