

Silent Treatment

Eric Bellinger

You been giving me the silent treatment
Oh, oh, oh, oh and it's all bad
Your body language telling on you
I can't take this any longer
What happened to the best friend I ever had?
Now all I got is questions, like, "Why you mad?"
You acting so different, I can't tell
I ain't do the dishes, I disrespect your wishes
Ain't leave the seat up but you don't care

Uh, where's your heart? 'Cause it's not here
Losing my focus, I'm just hoping I'm not going through the motions like

(Going through the motions...)

You been giving me the silent treatment
Oh, oh, oh, oh, I don't like that
Sex don't help the situation
Me, myself and my stubborn shit
What happened to the best friend I ever had?
Now all I got is questions, like, "Where you at?"
You acting so distant, can't you tell?
You don't give me kisses, I disrespect your wishes
Ain't leave the seat up but you don't care

Uh, where's your heart? 'Cause it's not here
Girl, losing my focus, I'm just hoping I'm not going through the motions like

(Going through the motions...)

Ooh, I been on autopilot, autopilot
First you get mad then I get mad
Then we make up, then it's all bad
Autopilot, autopilot
You the one that I chose, yeah
But I don't wanna go through the motions

(Going through the motions...)
