

Somewhere

Eric Bellinger

You say you don't think you can trust a man or love again, but
You can't hold on 'cause you just don't feel like starting over
Standing on the review mirror won't help quit living in the past let it go
Girl, move on

I know you want me
I want you to be patient with me
Just be patient with me
If we been to be
I know you'll still be waiting
On me, you'll be waiting on me

We gotta start somewhere
Somewhere, somewhere, somewhere
And what better place than right here,
Right here, right here girl
What better place than right here, right here
You know where, you know where, you know where I wanna go
You know where, you know where, you know where I'm tryna go
Right here

Don't be scared just put your hand in my hand girl
And follow my lead 'cause I feel some hesitation coming over
I'm a get inside your mind so you'll never have to wonder about him anymore
Move on...

I know you want me
I want you to be patient with me
Just be patient with me
If we been to be
I know you'll still be waiting
On me, you'll be waiting on me

We gotta start somewhere
Somewhere, somewhere, somewhere
And what better place than right here,
Right here, right here girl
What better place than right here, right here
You know where, you know where, you know where I wanna go
You know where, you know where, you know where I'm tryna go
Right here

Doin' my best but I can't wait forever
My heart is thicking hurry before it's too late
Just say the word and I'm ready whenever you are
Don't think so far, hey

We gotta start somewhere
Somewhere, somewhere, somewhere
And what better place than right here,
Right here, right here girl
What better place than right here, right here
You know where, you know where, you know where I wanna go
You know where, you know where, you know where I'm tryna go
Right here
