Spare Time

Eric Bellinger

What you doing now?
What you doing later?
What you doing when you wake up?
What you doing out? Hit mi casa later
You don't even need no makeup
Girl, do me a favour
Tell me, would you be my lunch time?
On your lunch break before you go home, could you squeeze a nigga in you, ba
by
Maybe while you getting dressed
Maybe when you in the shower
Have your meeting in my bed, I just need a half an hour

Come through, come through, what you doing in your spare time?
Come through, come through, can I do you in your spare time?
I know you busy girl yeah, you got work tomorrow, yeah
You don't go to club, no, that's why your money long, long

Baby girl you should come through in your spare time
Where are you in your spare time?
Hey girl won't you come through in your spare time?
Ooh, ooh, ooh, ooh, ooh
In your spare time

Oh girl, you know I wish I could hit you right now
You know exactly what would go down
I've been up and down your whole page
Thinking 'bout you screaming my name
What you doing in your spare time?
Can I do you in your spare time?
What you doing when you get home from work?
If you need it like me, could you swing by?
Know your career on a incline
Baby I don't need a set time
Early in the morning or late at night, know you got a little spare time

Come through, come through, what you doing in your spare time?
Come through, come through, can I do you in your spare time?
I know you busy girl yeah, you got work tomorrow, yeah
You don't go to club, no, that's why your money long, long

Baby girl you should come through in your spare time
Where are you in your spare time?
Hey girl won't you come through in your spare time?
Ooh, ooh, ooh, ooh, ooh
In your spare time

I know you working baby
I know you got hoes on your line
I know you busy baby
Won't take up too much of your time
I know you nasty baby
I know you need that in your life
So, I'm a just creep up from behind
You at your friend house, I don't mind

Come through, come through, what you doing in your spare time?

Come through, come through, can I do you in your spare time?
I know you busy girl yeah, you got work tomorrow, yeah
You don't go to club, no, that's why your money long, long

Baby girl you should come through in your spare time
Where are you in your spare time?
Is you at the crib or nah?
Is you at the job or nah?
Is you in the bed or nah?
In need of some head or nah?
Just let me know
Just let me know girl, when you got some spare time
