

# Time For Love

Eric Bellinger

She said what you doing tonight  
I said you  
She said what you eating tonight  
I said you  
What we need with the movies we can make our own  
Baby you won't need a dress but those heels girl leave em on  
I done hit the club every week working late sayin'  
Baby say I be there every week  
I don't want no other nigga to be there instead of me  
So tonight Ima make time for my one and only

Girl I promise I ain't leaving leaving  
All the parties for the weekend weekend  
Do whatever instead of spending spending  
All of my time with you

Girl you know you gotta make time for love  
Make time for love  
If you want it to work  
You gotta put in the time  
And make time for love  
Make time for love  
Girl you know you gotta make time for love  
Make time to love  
If you want it to last you gotta put her first  
Make time for love  
Make time for love

She said why you ain't with your guys  
I said id rather be with you  
She said you ain't gotta lie  
I said true  
What I need with my boys when my girl layin' right here right here  
Just sit back and recline trust me I ain't going nowhere nowhere

I done hit the club every week working late sayin'  
Baby say I be there every week  
I don't want no other nigga to be there instead of me  
So tonight Ima make time for my one and only

Girl I promise I ain't leaving leaving  
All the parties for the weekend weekend  
Do whatever instead of spending spending  
All of my time with you

Girl you know you gotta make time for love  
Make time for love  
If you want it to work  
You gotta put in the time  
And make time for love  
Make time for love  
Girl you know you gotta make time for love  
Make time to love  
If you want it to last you gotta put her first  
Make time for love  
Make time for love

I'll make time for you  
Do anything for you  
Tonight, tonight

Girl I promise I ain't leaving leaving  
All the parties for the weekend weekend  
Do whatever instead of spending spending  
All of my time with you

Girl you know you gotta make time for love  
Make time for love  
If you want it to work  
You gotta put in the time  
And make time for love  
Make time for love  
Girl you know you gotta make time for love  
Make time to love  
If you want it to last you gotta put her first  
Make time for love  
Make time for love
