

# What About Us

Eric Bellinger

(AyoVibe)

What about me, what about you  
What about love, what about trust  
What about then talkin back when you would hop in when I pull up  
Reminiscing bout back then lately  
Member how I used to fuck you crazy  
Back seat in the whip so wavy  
In so deep almost had my baby

What about, what about  
What about, what about us  
What about, what about love  
Girl what's up  
What about linkin back up  
Tell them other niggas back up  
Oowhaaaaauhhh  
What about me, what about you  
What about love, what about trust  
What about me, what about love, what about us, what about us

Fell for a ting from the west side  
If I'm being honest  
TLC no left eye  
That's all that she wanted  
How you gone unfollow me  
Leave me for the streets  
Babe  
There's no degree  
How cold you could be  
Babe  
Girl I remember the time  
I got receipts on my line  
The naked kind  
So don't you front, don't you lie  
I know ya body like me  
Put that on slime  
Girl you been my favorite  
Just do me one favor  
Don't keep that far from me

What about me, what about you  
What about love, what about trust  
What about then talkin back when you would hop in when I pull up  
Reminiscing bout back then lately  
Member how I used to fuck you crazy

What about, what about  
What about, what about us  
What about, what about love  
Girl what's up  
What about linkin back up  
Tell them other niggas back up  
Oowhaaaaauhhh  
What about me, what about you

What about love, what about trust  
What about me, what about love, what about us, what about us

Gave my heart for the first time,  
He was all on it  
Even though I left with my head high  
I was broken like promises  
Don't play the victim with me  
Guilty as can be  
Babe  
Do you believe  
The shit that you speak  
Cray  
Make me regret all the times  
I sent them pics to yo line  
You know the kind  
Wish I could go and rewind  
Put it all back in yo mind  
And that's on slime  
Used to be my favorite  
It ain't like I hate ya  
But this is how it's gotta be  
Yeaaaaah

What about me, what about you  
What about love, what about trust  
What about then talkin back when you would hop in when I pull up  
Reminiscing bout back then lately
