

# You Can Have the Hoes

Eric Bellinger

I'm ready to learn  
Yes I'm ready to learn  
To fall in love  
To fall in love  
To fall in love with you

Is you ready?  
It's 'bout that time, is you ready?  
One question, Is you ready?  
To fall in love

You say you ready well here we go  
You the one and everybody know  
We ain't keeping quiet, we ain't on the low  
They know you belong to me, yeah  
I'm talking 'bout exotic beaches, white sand on your feet  
The type of shit that you might find when you're in love with me  
So let's fall in love

Is you ready?  
It's 'bout that time, is you ready?  
One question, Is you ready?  
To fall in love

And we still, still getting money and we making more  
On fire, this shifts fire, already know  
You can have the hoes  
You so stupid, you can have the hoes  
Still getting money and we making more  
This shit's fire, already know  
You can have the hoes  
You so stupid, you can have the hoes

My girl, she my nigga though  
Real love, only Mary know  
When we at the crib she put on a show  
So home is where I wanna be, yeah  
It's like you accustomed your body was tailored for me  
Tell me how I'm gon' say I'm the king if I ain't got no queen  
Gotta fall in love

Is you ready?  
It's 'bout that time, is you ready?  
One question, Is you ready?  
To fall in love

And we still, still getting money and we making more  
One fire, this shifts fire, already know  
You can have the hoes  
You so stupid, you can have the hoes  
Still getting money and we making more  
This shifts fire, already know  
You can have the hoes  
You so stupid, you can have the hoes

South stand on her body, body  
Kissing her friend on her molly, molly

I touch her, she like it  
I tell her suck it, don't bite it  
I keep her fire ignited  
All our haters don't like it, we ball  
Any time you want this feeling baby, call  
I want you, that's all, let me touch you  
You can hit the block with me  
You can hit the yacht with me  
It's obvious you don't stop with me  
Boosie

Is you ready?  
It's 'bout that time, is you ready?  
One question, Is you ready?  
To fall in love

And we still, still getting money and we making more  
On fire, this shifts fire, already know  
You can have the hoes  
You so stupid, you can have the hoes  
Still getting money and we making more  
This shifts fire, already know  
You can have the hoes  
You so stupid, you can have the hoes

I'm ready to learn  
Yes I'm ready to learn  
To fall in love  
To fall in love  
To fall in love with you
