

Your Mind (Interlude)

Eric Bellinger

I'm tryna brush up on it, ay
Be close and personal with you, baby
More than a simple woman, yeah
Wanna know all there is to know 'bout you, baby
I love it when you naked
Like the flowers made for your secrets
Talking your body language, ay
Tell me all of your deepest
Desires and dreams
Everything between
Every tattoo
Every bad mood
I could love you how need
Water your soul like I white marigold

All night we stay up, ay
Girl, I love fucking your mind (Your mind)
All night we stay up (Yeah, yeah), ay
Girl, I love fucking your mind (Your mind, your mind)
All night we stay up, ay
Girl, I love fucking your mind

Girl, I love fucking your mind
Girl, I love fucking your mind
