

Eres Mi Vida

Eric Benét

Your gravity's pulling me in
The heat of your breath on my skin
Let the soul dance begin
You are the stars in my sky
Somehow your eyes see the man I try to hide
We found forever tonight
May the sun never rise

Come to me, love, Eres Mi Vida
Grant me one wish tonight
Let me love you, Con pasion y virtue
Till the end of all time

When did our souls collide
If you left me I'd surely die
We're forever entwined
Your song takes away my pain
Ooh, but it haunts me when you're away
Like the river to the sea
I follow you endlessly

Come to me, love, Eres Mi Vida
Only one wish tonight
Let me love you, Con pasion y virtue
Till the end of all time

Words were never spoken, this we never could have planned
To fall like this, is dangerous, baby
Trusting every moment with my life now in your hands
Now our hearts beat as one, Conexion Eternal

Come to me, love, Mi Vida
I have one single wish tonight
Let me love you, Con virtue
Till the end, till the end, end of time

Let me love you, Eres Mi Vida
Till the end of time
Ooh, Eres Mi Vida
Give me one wish, only one wish tonight
Till the end of all time, love
Till the end of all time
