

Fly Away

Eric Benét

Tiptoe inside my candy floss vibe
You know it's there, the back of your mind, somewhere

Edging away from all the white noise
Floating above or dive in deep, I don't care

Hide
Take a little trip inside
Curious to see you fly
Fly with me

Now you're sitting alone with all of your fears
You try to cry, but what's the point, no one hears

Sometimes you feel life is too much
Love make it right, love make it right, need your touch

Even if the world's on fire
I can be your wings to fly away
(Let me be your wings) (Fly away)

Still a lot of love inside us
Open up your wings, let's fly away
(Let's fly) (Let's fly away)
(Yeah, listen)

You are sensitive, you can't fly with that negative
Your heart's like a flower, I feel it in your energy
I won't ever leave you out here
I'll be with you when you're down here

You'll face rainy days with flowers in your hair
What you gonna do, what you can't control is alright
We could make a little life here
We can get into the sky here

Oh, don't go, little butterfly
I'm holding on, you're the reason why

Even when you're sad, even when you're blue
Even when you're less, I'll be here with you

Even when the world's on fire
I can be your wings to fly away
Don't you know we could fly
We could ride, we could fly away

Still a lot of love inside us
Open up your wings, let's fly away

Even when the world's on fire
I can be your wings to fly away
(I will be, I will be your wings, ooh)

Still a lot of love inside us (Still a lotta love)
Open up your wings, let's fly away (Let's fly)

You are, you are, you are sensitive
You are sensitive, you can't fly with that negative

Let's fly away from here, ooh
Oh, come with me, on my candy floss vibe and let's fly away
