

Good Life

Eric Benét

Turn away from your broken past
Get it 'cause I'm gettin' mine
I know the way where they live inside
Girl, we're runnin' out of time

Let the music delight
Be the wings on the flight
If it's heavier than me
'Cause I'm 'bout to fly

Keep the pace, baby, you've arrived
I can see it in your eyes

You're livin' the good life
Grab a drink, raise your glass
Don't it feel right?
Ride your wave, make it last

It's the good life
Nothin' holdin' you back
It's the good life
It's your life
So come on

Feel the love, let it overflow
Into every corner of your life, yeah
Turn it up, I'mma let them know
Keep it rockin' till the mornin' light, yeah

You've got only one shot
Give it all that you got
We can do this forever
But I'm 'bout to try

Stop and stir all they want it tonight
If they ever ask you why

Tell them this is the good life
If you dream it again
Don't it feel right?
Say goodbye to your past

It's the good life
Baby, no turnin' back
It's the good life
It's your life

This is the good life
Grab a drink, raise your glass
Don't it feel right?
Ride your wave, make it last

It's the good life
No holdin' back
Good life
It's your life

So many nights, I'm alone
Dreamin', waitin' for my moment in time
Now I can shine on my own
Thinkin' all this world is already mine

Can't shake me down, feel this crown
I'mma bother like never before
Don't turn this down, look around
Take a chance on this life that you've been waiting for

Can't you feel that it's your time to shine?
Make it real, just live your dream tonight

Yes, you're livin' the good life
Grab a drink, raise your glass
Don't it feel right?
Ride your wave, make it last

It's the good life
Holdin' you back
Good life
It's your life

Tell them this is the good life
If you dream it again
Don't it feel right?
Say goodbye to your past

It's the good life
No turnin' back
It's the good life
It's your life

This is the good life
(Feel right)
It feels so good
(Good life)
(Good life)
It's your life

Good life
Feel right
(Feels good, feels good)
Good life
Good life

Turn away from your broken past
Get it 'cause I'm gettin' mine
I know the way where they live inside
