Eric Benét

girl lets get down  
girl lets get down  
girl lets get down girl

I thought you'd be another pretty little link  
In my chain  
But girl I'm feelin like I just can't get you  
Outta my brain

I know I made you scream  
Is that what you mean

Naw baby  
It's like a deeper thing

I'm not trying' ta be  
Another chick you see

C'mon baby  
Can't tell me you ain't feelin' me

Just tell me something  
You don't tell them other girls around you  
Iminluvwichoo  
It's hard for me to not believe  
Dem things they say about you  
But iminluvwichoo  
You made my whistle blow  
You know you made my bell ring  
Cause iminluvwichoo  
I need to know you're feelin  
More than just a physical thing  
Girl, iminluvwichoo

Girl let get down  
Stop playin; round  
Girl lets get down girl

Lookin' like a trophy  
but you show'd me there's so much to  
Your mind  
(and baby I just love your style)  
givin' me this feelin'  
I been waitin' for all of my life  
(every time I see that perfect that smile)

when you move with me  
boy I just melt like cream

c'mom baby  
that's that chemistry

I wanna let you know  
But I don't wanna loose control

You won't baby  
I'll let you control me all night long

I'm serious baby  
(haha cause iminlubwichoo)  
I don't want to be with no other lady  
(yeah girl, iminlubwichoo heeeyy)

girl the fire start to rise  
each time I look into your eyes

and the river starts to flow  
and I cant control it

and the truth I can't deny  
no matter how I try to hide it

that I'm in love wit'choo

[repeat chorus]
