

## Me & Mine

Eric Benét

I could be your lover  
I could be your confidant  
I could be your complicated situation  
All the above  
I could be your changes  
When it's time to switch it up  
Long as I know what you're calling when you call it love  
Girl for you I'll go out of my way  
Tonight and today  
Damn I gotta say

You make me feel  
So satisfied  
And when we touch it just gets better with time  
Don't make em like you no more and that's why  
Ain't nothing gone ever come between me and mine

I could be your stranger  
Just tell me what time you on  
I could make you chase after me  
You'll get down on my knees tell me what you want  
Long as I'm the reason, reason you keep coming home yea yea  
Cause you know right here with me is right where you belong  
Cause for you I'll go out of my way  
Tonight and today  
I just gotta say

You make me feel  
So satisfied  
And when we touch it just gets better with time  
Don't make em like you no more and that's why  
Ain't nothing gone ever come between me and mine

Girl for you I'll go out of my way  
Tonight and today  
Damn I gotta say

You make me feel  
So satisfied  
And when we touch it just gets better with time  
Don't make em like you no more and that's why  
Ain't nothing gone ever come between me and mine
