

Must Be Love

Eric Benét

This is nothing like what I've had before
Feels like souls twisted up can't tell mine from yours
Who ever sent you knew what I was looking for
And I thank God that I found mine and I can say that I'm all yours

And it ain't my style
To brag about what I got
But tonight I gotta testify
Cause if I didn't then it wouldn't be right
I'm tellin' them that you're my why
And what we got gone last for life
It's the greatest of all time
It might be hard for me to describe

But if it walks like
Talks like
Feels like
Then it must be
If it smells like
Looks like
Tastes like
Then it must be
If it sound like
All night
Ain't no denying then it must be
If it talks like
Walks like
Feels like
Then it must be love

Got me waking up in the mornin'
Missin' you while you were still here
And if you come any closer with them hands
We ain't gone ever leave the bed
So don't mind me
I'm just crazy bout you
Boy I don't care
Cause you're more beautiful than the sunset

And it ain't my style
To brag about what I got
But today I gotta testify
Cause if I didn't then it wouldn't be right
I'm tellin' them that I'm your wife
And what we got gone last for life
We the greatest of all time
It might be hard for me to describe

But if it walks like
Talks like
Feels like
Then it must be
If it smells like
Looks like
Tastes like
Then it must be
If it sound like

All night
Ain't no denying then it must be
If it talks like
Walks like
Feels like
Then it must be love

You are my one
My one
You are my why
My why
You are my love
My love
You are my life
My life
