

So Distracted

Eric Benét

Girl it's crazy
I've been having you on the brain
And you're the one to blame for
Schedule change running late
Got my people asking questions
They say "hey"
You ain't been on top of your game
And I've been M.I.A. 'cause
In your eyes time flies
And your lips prolong the session

I just can't seem to say goodbye when I just said hello
The hardest part of loving you is the time to let you go

I don't like to be away from you, stray from you
Spending every single day with you
I got a million things to do
But you know you got me so distracted
I'm trying to focus on my grind and I'm trying
Your kisses always on my mind
Girl, you're all I wanna do
And you know you keep me so distracted

I said babe, you got me feeling some kind of way
And it's just so unexpected
Them late nights been on my mind, got me staring into space
Listen babe, you know I don't exaggerate things
But every time you touch me
Little bells from every cell ring a ding inside of me

Now I don't know a better way to spend my afternoon
The problem is one look at you and my whole day is through

I don't like to be away from you, stray from you
Spending every single day with you
I got a million things to do
But you know you got me so distracted
I'm trying to focus on my grind and I'm trying
Your kisses always on my mind
Boy, you're all I want to do
And you know you keep me so

The next fifteen minutes I got to spare
I want to spend it with you
Ooh I wanna call you
Ooh baby
I just can't wait to get out of here
As soon as work gets through, I'm running
Boy, I'm running straight to you

I don't like to be away from you, stray from you
Spending every single day with you
Got a million things to do
But you know you got me so distracted
I'm trying to focus on my grind and I'm trying
Your kisses always on my mind
Boy, you're all I want to do

And you know you keep me so

Our distraction and attraction stays on the brain, it don't matter what I do
So true, so true, ooh ooh
Our distraction and attraction stays on the brain, it don't matter what I do
, I do
So true, so true, so true

The next fifteen minutes I got to spare
It's yours, all mine
It's yours, baby, it's yours
I just can't wait to get out of here
Can't wait, I can't wait
Focus, oh
I'm gonna focus on you
Oh baby
Focus on me baby
The next fifteen minutes I got to spare
I want to spend it with you
Focus
What you came to do
And I'ma do it to you too, girl, yeah
I just can't wait to get out of here
Ooh, ooh
I want to focus on you, baby
Oh girl, yeah
