

Sunshine

Eric Benét

There were times when I was unsure that we
We gonna last beyond the sunset, babe
But after years it's clear we were meant to be
But something's been lost along the way

Remember times we just laughed for no reason at all
And all those feelings of anticipation
We've grown accustomed to life without living at all
Cause something went wrong along the way

Oh let me feel, I need to feel that sunshine
The light that used to grow upon my face
Oh let me feel, we need to find that sunshine
The way that love shining on yesterday

If you're willing, I'm ready to rediscover, babe
All of the waters that true love could bring
We've been asleep but I've heard the wakeup call, baby
Before we get lost along the way

Oh let me feel, I need to feel that sunshine
The light that used to grow upon your face
Just let me feel, we need to find that sunshine
The way that love shining on yesterday

Oh let me feel, I need to feel that sunshine
The light that used to grow upon my face
Just let me feel, we need to find that sunshine
The way that love shining on yesterday

But minutes turned into hours, the hours turned into days
The days turned into years and years turned into empathy
And our shine, our beautiful shine, let's bring it back
Bring it back, bring it back, bring it back

Oh let me feel, I need to feel that sunshine
The light that used to grow upon your face
Just let me feel, we need to find that sunshine
The way that love shining on yesterday

Oh let me feel, I need to feel that sunshine
The light that used to grow upon my face
Just let me feel, we need to find that sunshine
The way that love shining on yesterday

There were times when I was unsure that we
We gonna last beyond the sunset
But after years it's clear we were meant to be
But something's been lost along the way
