

# That's Just My Way

Eric Benét

Feel me, take me in slowly  
So you can understand how deep my love can go  
Baby your river is flowing  
So let me just fill you up till you just overflow

Just feel me, all over your body  
I promise you'll thank me  
If you do just what you're told  
'Cause, you'll be whimpering gently  
Shivering softly but you won't be  
Sad or cold

You know what that is  
That's just my way  
Whenever I like to take my time  
Whenever you can't believe the high  
Whenever I got you open wide  
That's just my way  
Whenever you feel the best you had  
Whatever your wish it's my command  
When even your bad day ain't so bad  
That's just my way  
You know what that is (you know you know)  
That's just my way (that's just my way)

Oh yeah completely I want you to know me  
Till all of your fears and inhibitions are gone  
Now walk towards me, ever so slowly  
Now hike up that skirt and show me just where I belong

I won't stop till the break of dawn  
That's what's really goin' on  
You can't do much better  
I'm down what you gonna do  
Baby now it's up to you  
Now I won't wait forever  
Girl that's just my way
