

Work It Out

Eric Benét

What's on your mind
Cause lately I been feeling we fallin' behind
You say I'm actin' different but it's you at the time
And when I ask you, are you good?
You say "you fine"
Tell me who's lying
Everyday I'm trying
But you be acting like you just don't see
Why it's so hard for you to take accountability
So we can move forward
But it feels you want us to be over
Already
We should've made up already
But you just don't get it
You trip about problems nonexistent
Better pay attention
'For what you got here come up missin'
Baby just listen
I'm tryna warn ya
God my witness
Yeah

I'm right here cause I wanna be
If I wanted to leave I would leave
Boy I need you to understand
That losing you is not part of my plan

Work it out
Do you wanna work it out
We know we don't wanna walk away from each other
No word of mouth
Baby let's just work it out
Whatever issues we got let's discuss em under covers
Work it out
Love it when we work it out
Put that body on me
Tonight we gon' cause a scene
Work it out
Tell me you wanna work it out
Don't let another second go by

Hold up
Wait a minute
Don't cut me off
Let me finish
I'm comin' straight from my heart
Are you listenin'
Baby I I I
Don't wanna cry cry cry
Cuz the way you put the lovin' on me
It's so hard to say goodbye yes
Sometimes I'm a mess
This I confess, as I digress
And take accountability
'Cause I don't wanna lose you
Do whatever it takes to
Prove my love to only you

I'm right here cause I wanna be
If I wanted to leave I would leave
Girl I need you to understand
That losing you is not part of my plan

Work it out
Do you wanna work it out
We know we don't wanna walk away from each other
No word of mouth
Baby let's just work it out
Whatever issues we got let's discuss em under covers
Work it out
Love it when we work it out
Put that body on me
Tonight we gon' cause a scene
Work it out
Tell me you wanna work it out
Don't let another second go by
Oh no, can we, can we
I wanna know if we can work it out. Yes we can oh
You and me, babe
No, yeah

Work it out
Do you wanna work it out
We know we don't wanna walk away from each other
No word of mouth
Baby let's just work it out
Whatever issues we got let's discuss em under covers
Work it out
Love it when we work it out
Put that body on me
Tonight we gon' cause a scene
Work it out
Tell me you wanna work it out
Don't let another second go by
